TILE OF SPAIN

Porcelain Tile
Shiny Finish
Wall/Floor Tile

16 pc per box
21kg per box

The Harlem series offers an exciting combination of style and practicality, drawing inspiration from the warmth and cultural richness of New York's Harlem neighbourhood. These tiles are crafted from porcelain, providing exceptional strength and resistance to wear, making them suitable for both residential and commercial spaces, even in high-traffic or damp areas.

Beyond their durability, Harlem tiles offer a wide range of aesthetic possibilities, including various colours and unique textures that can create looks from modern industrial to rustic charm. Offering a unique interpretation of classic brick tiles, they feature a glossy glaze with imperfections designed to capture the charm of industrial settings.
