Metallic effects are one of the latest trends that is continuing to grow. A collection inspired by the supreme elegance of copper, steel and gold, a range of four colors that brightens up and adds personality to our rooms, giving them a more modern and innovative feel. What's more, its bases are accompanied by decorations called **Flos Aurea**. Advances in technology for the tile industry have allowed us to create elegant floral designs to further set our tiles apart. These stunning tiles add a touch of luxury and glamour to any room.
